### *How It Works >>>*

Our goal is to create high quality, long lasting products for our customers. Each of our items are custom made from standing dead Rocky Mountain Blue Pine. We are happy to meet your needs by including extra options for an additional cost.

You can choose from:

A.) Our completed tables tops which traditionally come with straight legs.

1. Select which table top from the completed tabletop section.
2. Specify if you would like any additional options, such as twisted legs or a bottom shelf.
3. Once we have your information, we will figure out the cost of shipping and will send a proposed amount for your review and approval.
4. Thereafter, we will mail or deliver (if local) your package safely and securely.

B.) Uncompleted slabs, ready to be customized.

1. Choose your desired table top.
2. Decide which “Face” you would prefer for the top side.
3. Specify if/which options you would like to see implementent. (Such as twisted legs or a bottom shelf)
4. We will send the proposed amount for your review and approval.
5. Thereafter, we will mail or deliver (if local) your package safely and securely.

Call TODAY

*We harvest, mill, and product each from standing dead Rocky Mountain Blue Pine.*

*No green trees were harmed during the manufacturing of our products.*

Our story began years ago when our family became interested in creating new high quality wood products by utilizing the large amount of standing dead trees in our area.

The Rocky Mountain Region has dealt with it's share of pine beetles eating and destroying long lived growth. Once the beetles have gone the tree still stand blocking sunlight for new growth.

Our goal is to make less impact on green trees being harmed during the manufacturing of our products. We believe in helping the forest by aiding in new growth to flourish for our children and generations to come.

We're the Lemler family and we sleep, eat, and breath the Montana life. Based out of Butte and Whitehall, MT we enjoy every ounce of beauty surrounding us.
